RE: Draft Final Corrective Measures Study, Revision 2, Solid Waste Management Units 18, 20, 21, and 52, Naval Station Mayport, USEPA ID #FL9 170 024 260, Mayport, Florida (Tetra Tech, August 7, 2013)

Dear Mr. Hayworth:

I have reviewed the subject document dated August 7, 2013. The document was received on August 8, 2013. It was completed under Contract Task Order 0033.

The report states that *"This Corrective Measures Study (CMS) / Site Rehabilitation Completion Report (SRCR) was prepared for Solid Waste Management Units (SWMUs) 18, 20, 21, and 52 at Naval Station (NAVSTA) Mayport, in Jacksonville, Florida by the United States Navy pursuant to the Resource Conservation and Recovery Act (RCRA)."*

The Introduction section of the report states that *"This report presents the results of the CMS/SRCR, including the following:*

- 1. Selection of contaminants of concern (COCs).*
- 2. Determination of areas of impacted media exceeding the levels in Chapter 62-777, Florida Administrative Code (F.A.C.).*
- 3. Development, screening, and evaluation of corrective measure alternatives.*
- 4. Recommendation of corrective action as necessary to address contaminated media at SWMUs 18, 20, 21, and 52."*

Based upon my review of the data presented in the document, the Department concurs with the No Action recommendation for SWMUs 18, 20, 21, and 52. The Final version of this document should be sent to this office at your earliest convenience for concurrence.

Draft Final Corrective Measures Study, Revision 2
SWMUs 18, 20, 21, and 52, Naval Station Mayport
